JUICE CONCENTRATES

A concentrate is a form of substance which has had the majority of its base component removed. Typically, this will be the removal of water from a solution or suspension, such as the removal of water from fruit juice. Juice concentrates represent a single stated fruit.

CLARIFIED JUICE CONCENTRATES

Juice concentrates which are normally sold as pulpy or cloudy, are processed to be clear with no suspended particles.

STATED JUICE BLENDS (WONF)

Juice concentrates WONFS are specially formulated blends of various juice concentrates with other natural flavors. These blends of juices, flavors, and acids are designed to match the characteristics of a stated fruit.

ORGANIC JUICE CONCENTRATES

An organic concentrate is a form of substance which has had the majority of its base component removed. Northwest Naturals is Certified Organic by USDA Organic. Typically, this will be the removal of water from a solution or suspension, such as the removal of water from organic fruit juice. Organic juice concentrates represent a single stated organic fruit.

ABOUT NORTHWEST NATURALS

Strategically located in the Western US, Northwest Naturals is located close to where the fruit is grown. They take great care in selecting raw materials to meet and maintain very high standards. This helps supply our customers with reliable and safe products. For fruits grown outside of the US, we maintain a network of qualified partners to secure tropical fruits, as well as the exotic.
